TUESDAY, SEPTEMBER 27. 1737.

90704

Yesterday arrived a Mail from Holland.

Vienna, Sept. 10. O. S.

**P**RINCE Charles of Lorraine is arrived here from the Army, from whence the Hereditary Prince of Modena is also forthwith expected.

The Count de Fuenclara, the Spanish Ambassador, has made fresh Instances, as they say, for the speedy Regulation of the Affair relating to the Allodial Estates of Tuscany, and the Duchies of Parma and Placentia, according to the Preliminary Articles; and he insinuates, it seems, that till this Affair is made an End of, his Master cannot accede to the Treaty of Peace.

According to the last Advices from Hungary, the Imperial Army under Count Seckendorff was expected a Week ago at Technizza, from whence it would have about 7 Days March more to the Frontiers of Bosnia. It is still believed that Zwoznick will be besieged this Year; and as about 17,000 Turks are intrenched near it, we soon expect to hear that Count Seckendorff has attacked them: And the Prince of Saxe-Hilburghausen is likewise order'd to march with his Army that Way.

His Imperial Majesty being informed of some Reflections that had been cast upon Count Seckendorff, with Regard to his Operations, has declared in Publick, That he was satisfy'd with his Conduct, and that it was unjust to criticize it.

We hear that some Tartars have made an Incursion into Imperial Wallachia, and committed great Ravages there; and 'tis confirmed, that a great Body of the Turks, who are very daring since the late Action near Bagnaluck in Bosnia, is marching towards the Frontiers of Transylvania. Mean Time, the Deputies of the States of this Province, who have adjourned their usual Dyer at Clausenbourg to Hermanstadt, that Count Wallis, who commands the Emperor's Troops in Wallachia, may repair to it with the more Ease, have represented that the Inhabitants of the said Province are prodigious Sufferers by the long Stay of the Troops quarter'd there; that a great many Families thereby ruined, have been forced to fly their Country; and that 'twas to be feared the rest of the Inhabitants would do the same. But Count Wallis, in quality of the Emperor's Commissioner at the Dyer, has assur'd the Deputies, That as soon as the Campaign is ended, Measures will be taken to ease the Inhabitants of Transylvania, with Regard to Winter-Quarters.

**Belgrade, Sept. 4. O. S.** The Bosnians and Bulgarians still continue to commit great Disorders on the Frontiers of Servia; and the Turks make Incursions also into Sclavonia. The Generals Petrasch and Stein are arrived here, to be cured of the Dysentery.

**Brunswick, Sept. 15. O. S.** We are extremely concerned to hear, that the Troops which the Duke of Wolfenbuttle furnished the Emperor with, to be employed in Hungary, are one Half diminished, what by Desertion, and by the Dysentery, with which they were afflicted soon after their Arrival; several of the Commanding Officers being also dead of the Dilempers reigning in that Country.

**Petersburg, Sept. 3. O. S.** It is confirmed, that General Lascey is returned with his Army out of the Crim, for no other Reason but because the Year was too far advanced, for him to go into the Southern Part of the Country, which is the only Part that remains to be ravaged; the East and West Parts of that Peninsula being so ruined, that the Damage cannot be repaired in 20 Years Time. Moreover, that General thought not fit to go farther into that Peninsula, for the Sake of keeping a Communication open with that called the *Muddy Sea*, which he has trepassed with his whole Army, and is encamped on the Banks of it, a few Leagues Distance from Perecop. As according to all Appearance the Satisfaction which this Court is resolv'd to rake of the Crim Tartars, will not be complet till their Country is entirely ruined, it is believed, that the Expedition which remains to be undertaken to the Southern

Part, will be entered upon about next Spring; and for this Purpose General Lascey's Army is to be considerably reinforced.

'Tis certain that Count Munich did not continue his March towards Bender, because of the Apprehension that it would want Substantia in that Neighbourhood. His Troops are actually on the March to Winter Quarters in the Ukrain, Bridges having been built over the Borythneses for their Passage to that Country; and all Preparations are making at Kiow and Pultowa for the Reception of the said Count and the other Generals.

**Warsaw, Sept. 7. O. S.** Tho' the Turkish Plenipotentiaries at Nimirow declared, that the Proposal of the *Uti Possidetis* as a Preliminary of the Peace, was a burdenson Condition, yet we are assur'd that the Courts of Vienna and Russia are not only resolv'd to have the same comply'd with, but that they have demanded by their Plenipotentiaries at the Congress, That the Grand Seignior shall renounce the Possession of all the Conquests which the Courts of Vienna and Russia have made since the beginning of their War with his Highness: That the Porte shall indemnify them for the Expences they have been at in carrying on the said War: That the many Subjects of the Emperor and Russia, who have been carry'd Slaves into Turkey, shall be set at Liberty; or if they cannot be restored, those two Powers shall be compensated for them in some other Manner; and that moreover sufficient Securities be given, that they shall be no more exposed for the future to the Incursions and Insults of the Tartars.

**Venice, Sept. 10. O. S.** The Republick is alarm'd to hear of the Resolution taken by the Emperor, to send the greatest Part of his Troops into Bosnia, for fear it should prove of ill Consequence to their State: Nor are they less uneasy at another Piece of News from Dalmatia, viz. That the Turks of Duleigno and Durazzo in that Province, are making great Preparations by Land and Sea, with a Design, as they give out, to hinder the Transportation of Provisions and Ammunition to the Imperial Army from the Emperor's Provinces by the Adriatick Sea: But the Senate is apprehensive that the Turks have a Design to disturb our Navigation and Commerce.

**Triers, Sept. 17.** According to Advices from the Frontiers, a great Number of French Troops is posted in the Three Bishopricks, and along the Maese, which are distributed in such a Manner, that in a short Time they are capable of forming a considerable Army; and that they have been joyn'd by 16 Independent Companies, that have Orders to hold themselves ready for a March.

But these inimitable Qualities, and solely inherent Virtues, by which it has justly gain'd such a universal and immortal great character, have occasion'd, as usual in such cases, various and frequent Endeavours to mimic it, some under the same Name, and in the very Words of this Advertisement, and others under other Names; he careful, therefore, to have the right, which may be infallibly relied upon, and which is to be had only by the Author's Appointment, of the Gentlewoman, at the Blue-Posts, in Haydon-Yard, in the Minories, London, at 12 1/2 s. a Bottle, with Directions.
